### Ricklyn Farms Petting Zoo:

"We are a family owned and operated petting zoo.  
 We do this for fun, for our love of animals, and to  
 educate others about animals along the way. Each  
 time you meet our animals you will make a best friend  
 for life. Most of our animals love giving hugs and  
 kisses whether an emu, goat, puppy, or donkey. Our  
 goal is to teach you about our animals and give you a

hands on, up close experience with them where you  
 can interact with the animals as we do everyday.  
 One of our favorite parts of petting zoos is seeing  
 different species of animals interact together as well  
 as how they interact with children. We hope that  
 every encounter you have with our animals will be  
 one to remember and the time of your life! We  
 hope that you'll fall in love with our critters as  
 much as we have!"
